Dear

25X1A

25X1A

Enclosed are two copies of the technical and cost proposals dated 31 October 1963 for the Ground Processors which you and [redacted] have been discussing. [redacted] requested, and I have furnished him under separate cover, price information for two to four units as follow-on to this procurement.

The cost per unit processor in these quantities is \$25,500 each. The cost per preparation tank is \$4,900 each. Five (5) rolls of film (Type SO-135 or 136), Bimat and sufficient preparation chemicals, which are available from Eastman Kodak are required for test and checkout of each processor, and are requested as customer furnished at this time.

We are, as you are aware, very anxious to begin work on this project since we feel that it fills a definite requirement for certain of your activities.

Best regards.

Sincerely,

Enclosures (4)
